

The Fastest Way to Plumb a Column

Speed & Accuracy Lasers Can't Beat

What is a Bazooka Plumb Bob?

A precision magnetic vertical level used for the alignment of steel columns, walls & more. It attaches/releases easily by way of a powerful magnetic head and gives an instant readout for level. Also use on precast, forms, walls, studs and more...(Precast & Wall Hook or Form Hook attachments required for some applications) An essential ironworker tool, made in the USA since 1967.

Features & Benefits:

- **Fast**- By up to 50% vs a Laser
- **Adjustable**- From 6'6"-12'
- **Efficient**- Needs just 1 man to use
- **Accurate**- to .001"
- **Easy**- No Setup or Climbing
- **Versatile**- Use in wind, rain & other inclement weather(as safety regs permit)

Use the Bazooka Bob On:

- Steel Columns - Metal Buildings - Gang Forms
- Channel Bucks - Framing headers - Metal Studs
- Shelf Angles - Steel Forms - Rigging
- Tilt Walls - Inspections and more
- Precast - Walls - Forms and more(w attachment)
