Dear Pix4Dmapper users,

As a current PIX4D**mapper** User, we would like to offer you a special opportunity to widen your portfolio of powerful geospatial software and **purchase the** PIX4D**matic and** PIX4D**survey bundle at an incredible price**.

Now is the time to take full advantage of the flexibility and robustness of PIX4D**mapper** together with the scientific innovation built into PIX4D**matic and** PIX4D**survey**.

Whether you want to take on bigger, more complex projects or get the details of a terrestrial scan, PIX4D**matic** is the right software for you. Work faster with better processing speed, process photos and LiDAR together from iOS devices using PIX4D**catch**, perform accurate RTK and PPK workflows thanks to improved Geoids support, and deliver aesthetically and geometrically accurate 3D meshes to your clients.

Move from real-surveying to virtual with PIX4D**survey**. As you produce 2D and 3D outputs, move to the next step by efficiently vectorizing your data. Create CAD-ready files with ease. You can even save time and energy with automated detection of man-holes and other objects or measure distances and volumes.

From now until December 31st, 2022, purchase:

PIX4D**matic and** PIX4D**survey Yearly Bundle (for one year only)**

$850 USD/EUR/CHF (list price $3,500 USD/CHF, 3,300 EUR)

(Renewal after one year will be the current list price)

or

PIX4D**matic and** PIX4D**survey Perpetual* Bundle**

$2,000 USD/EUR/CHF (list price $5,990 USD/CHF, 5,490 EUR)

*Support and Upgrades is included for the first 12 months (extension at 599 USD/599 CHF/559 EUR)

S&U needs to be maintained annually for future access to support & upgrades. The software will work even without purchasing S&U but if a client wants to upgrade at a later stage this will require a full license purchase.

CONTACT US NOW TO GET ACCESS TO THIS OFFER!

This offer is reserved for users with current perpetual or yearly PIX4D**mapper** *paid licenses.*

One special offer per PIX4D**mapper** *license only.*

Got any questions? Contact Caron/East @ 800-25CARON (252-2766) or sales@caroneast.com

Why purchase Pix4Dmatic & Pix4Dsurvey if I already have Pix4Dmapper?

- Matic has a number of feature upgrades and advantages
    - o **Supports Geoids**
    - o Significantly faster, especially for hi-res imagery and large datasets (Any system sold with a 36mp camera or higher should be sold with Pix4Dmatic)
    - o Supports 10,000+ photos at once (good computer needed)
    - o Easier workflow (many of the previous options are now baked into algorithms)
    - o Supports iPhone LiDAR from Pix4Dcatch (survey accurate)
    - o Lifelike meshes
    - o Auto noise removal
    - o Auto sky removal
    - o Export quality
- As an FYI, Matic does not currently support the following (coming soon)
    - o Thermal
    - o Multi-Spectral
    - o Scale constraints
    - o Orthomosaic Editor

Pix4Dmatic and Pix4Dsurvey are where Pix4D is placing a lot of focus now. Mapper is still fully supported but there are no new features coming to it.

A lot of other features people want from Pix4Dmapper are now in Pix4Dsurvey along with a ton of other features. It does the best photogrammetry ground classification we have seen.
