Single-Slope Construction Laser
RL-HV1S

Fully featured, easy-to-use self-leveling single-slope laser
Single-Slope Construction Laser

Single-slope applications
Designed for a variety of tasks, it can be used for single-slope applications. Slopes up to ±5% (±15% with tilting plate) can be used in the X axis.

High powered
With an operating range of over 800 m (diameter), the RL-HV1S has the power to cover even the biggest projects. (Laser class 1)

Long battery life
Contractors who want a laser with a long battery life will love the RL-HV1S. With an operating time of 120 hours on alkaline batteries or 65 hours with the rechargeable Ni-MH battery pack, this laser will still be working long after others have quit.

All-weather dependability
With the IP66 rating, the RL-HV1S is “job site tough” and can withstand dust, a sudden shower, and even torrential rainfall.

Bluetooth Laser Manager (App download)
Compatibility for iOS and Android provides wireless remote control using a cell phone to adjust slope and check calibration. No special remote control needed.

Key Components
- RL-HV1S laser
- Laser manager app
- Works with LS-100 and LS-80 series laser receiver
- Bluetooth
- Sensor holder
- Batteries and charger
- Carry case

Five-year guarantee
The RL-HV1S laser comes with a five-year guarantee. Topcon backs up this reliable, accurate laser with the best factory warranty in the industry.
