Benchties™

The Vertical Surface Control Point

The BENCHTIE will save you time and money by allowing all benchmarks and ties to be plotted on work sheets for easy reference. The BENCHTIE is designed to be used with the information tag. Once the BENCHTIE is set and located, information can be recorded on the tag with a permanent marker. This will enable

the surveyor to leave a benchmark that is easily identified and used by others.

- Recessed dimple on top for prism pole
- High visibility tag for marking data
- Resections are made instantly and accurately
- Light weight
- Pre-drill to set in concrete
- Use in trees or poles as permanent or temporary benchmarks

When Ordering:

There are 20 BENCHTIES with tags per box. Sold by the box. Available in yellow.

Part #	Quantity Per Box	Wt. Per Box
2700Y	20 (tags included)	2.5 lb.

Flagging

NEW ChrisNik Flagging

ChrisNik is excited to announce our new flagging brand! This durable, vibrant and fade resistant PVC roll flagging is often used for surveying, forestry, construction and many other outdoor uses. Choose from standard or bright fluorescent glo colors.

When Ordering Either Brand

Flagging is sold by the box—12 rolls in a box and 12 boxes in a case.

Presco Texas Flagging

Texas Roll Flagging has a Texas shaped embossing. It is 2 to 3.5 mils thick and will withstand temperatures to -20° F. Rolls are 1 3/16" x 300' for standard colors and 1 3/16" x 150' for Glo colors.

Part #	Description
04TX-B	Blue TX Flagging
04TX-BG	Blue Glo. TX Flagging
04TX-G	Green TX Flagging
04TX-GG	Green Glo. TX Flagging
04TX-LG	Lime Glo. TX Flagging
04TX-OG	Orange Glo. TX Flagging

Locators

Your Solution to Finding Surveyor Markers

ChrisNik HoundDog Magnetic Locator

With Fence Ignoring Technology

Go to chrisnik.com to see a video on how the HoundDog works.

- 5 Year Warranty
- 38" long x 2" outer diameter at widest point
- Weighs 3.5 lbs.
- Does not collapse.

ChrisNik's HoundDog is built with new hi-tech **Fence Ignoring Technology (FIT)**. The HoundDog can sniff out those hard to find survey markers under fences and around metal buildings.

The HoundDog works great with ChrisNik's MAG NAIL®, MAG SPIKE® and MAG HUB®! Our new HoundDog locator with its patented technology will quickly become your best friend!

Part #	Description
18CN-ID2100S	ChrisNik's HoundDog Magnetic Locator

"It lasts a lifetime and then some!"

Part #	Description
18ML-1	Locator without meter
18ML-1M	Locator with a LCD meter
18ML-3S	SubSurface ML-3S

- 7 Year Warranty
- Works GREAT with MAG NAIL®, MAG HUB® & MAG SPIKE®!
- Setting new industry standards.
- **Find those survey markers that you couldn't find before.**
- Keypad switches, no knobs to break off.
- Best value for your money!
- Soft/hard case and batteries included.

442P-MA24	24" Seymore Machete	1 lb.
44MA22SHEATH	22" all leather sheath with belt loop	1 lb.
44MA24SHEATH	24" all leather sheath with belt loop	1 lb.

Machetes and Sheaths sold separately.

MAG products

ChrisNik's MAGNAIL® is the industry standard for surveying and construction points worldwide.

It out performs any survey nail, period!

Benefits of the Original MAGNAIL:

- Magnetized for fast easy detection with a magnetic locator
- Large center point
- Zinc plated -ROHS European compliant
- Available in seven sizes
- Made in the USA

ORIGINAL MagNail - Ordering Info*

Part #	Size - L x W	Quantity
24750	3/4" x 1/8"	Box of 100
241000	1" x 5/32"	Box of 100
241250	1 1/4" x 3/16"	Box of 100
241500	1 1/2" x 1/4"	Box of 100
242000	2" x 1/4"	Box of 100
242500	2 1/2" x 1/4"	Box of 100
243500	3 1/2" x 1/4"	Box of 100

When Ordering:

There are 12 boxes (3 1/2" has 6 boxes) per case. Sold by the box or case.

Stainless Steel MAG Nail*

- Non-corrosive survey nail
- Ideal for bridge projects
- Size 1 1/2" x 1/4"
- Non-magnetized
- Not hardened—Pre-drilling is required in almost all applications.*

STAINLESS STEEL MagNail - Ordering Info

Part #	Size - L x W	Quantity
251500SS	1 1/2" x 1/4"	Box of 100

Ask your dealer about them today!

- * To pre-drill into concrete use a masonry drill bit.
 - For 1 1/4" MagNail - Use 3/16" drill bit
 - For 1 1/2", 2", 2 1/2" & 3 1/2" MagNails - Use 1/4" drill bit

The MAG HUB® is magnetized for easy detection and with a galvanized coating it resists corrosion. It has a large center point and looks like a standard survey marker. The MAG HUB is less than half the price of a stake and is easy to carry. **Not made to be driven in concrete or asphalt.**

30 lb. Box - Ordering Information

Part #	Size	Quantity
3MAGHUB4	3/16" X 4"	Approximately 885

Keson RR318N

- Heavy duty poly cast wheel
- 3-piece pistol grip handle with quick-snap cam locks
- Easy to read, 5-digit, magnified counter measures to 9,999 ft. and 11 inches without resetting

Keson RRT12

- Enhanced grip, pistol-type handle
- Brake on pistol grip
- Gear and shaft transmission for highest measurement accuracy and strength. No belts to stretch or fail.

Keson MP401

- Rugged 3/4" steel frame. Tough enough to handle any terrain.
- Compact fold-down. Easily folds in half for storage and portability.

Keson MP415

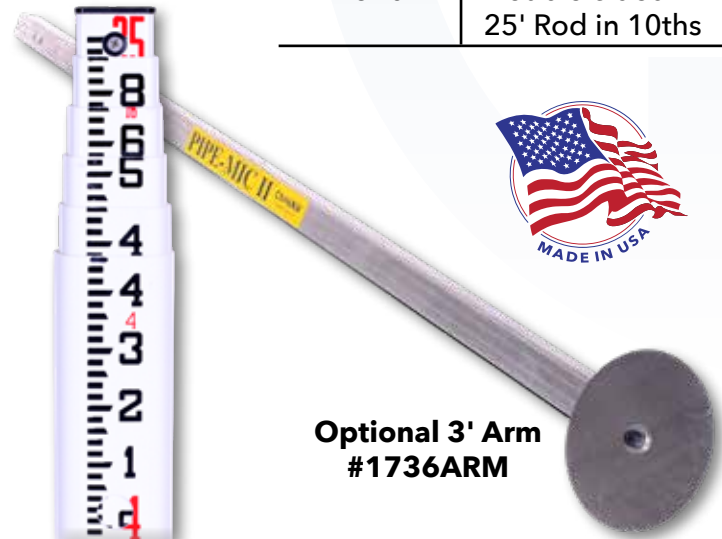

- 3/4" steel frame for superior durability
- Heavy-duty barrel clamp, allowing unit to fold to half size
- Two-scaled measuring in feet/inches and feet/tenths, molded into the wheel itself

Pipe-Mic® II

Measure inverts and pipe sizes

Fast, Easy and Accurate Measurement of Inverts and Pipe Sizes

- By pulling a pin in just seconds you can go from zero to 1 ft. vertical offset for clearance under rod.
- Measurements are more accurate because you are measuring with a vertical plumb rod.
- Made for SECO 25' rod, USL rods and our double-sided PIPE-MIC II rod.
- Made of lightweight (two pounds) non-rusting aircraft aluminum.
- No tools needed to attach to rod.
- Slides on and off rod in seconds.
- Round foot design slices through material at bottom of pipe and ensures accurate invert and pipe diameter measurement.
- 24" arm included (optional 36" arm sold separately)

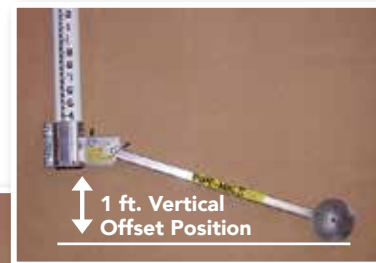

Optional 3' Arm #1736ARM

Double-sided 25' Rod #172510

Double-Sided PIPE-MIC II Rod

- Made exclusively for the PIPE-MIC II
- Reduces multiple setups when using a Total Station or auto level.
- Printed in tenths on front & back of rod.

Part #	Description
1702PM2	PIPE MIC II
1736ARM	3' Arm
172510	Double-sided 25' Rod in 10ths

REDTOP products

At **ChrisNik** we strive to manufacture the best quality stakes you will ever use:

- We use only selected premium hardwoods resulting in less breakage—saving you time and money.
- Our stakes have four smooth sides for easy writing.
- Our hubs have pencil points for easy and straight driving.

ChrisNik Laser Transfer Pro

The ChrisNik Laser Transfer Pro is a floor to ceiling layout system for use with Trimble Field Link layout software, Trimble Robotic Total Station kits and accessories. It quickly and easily allows the user to transfer layout points onto the floor or ceiling with its vertical laser dots. The rolling base allows it to easily move across concrete floors and fine adjustments to be made with a sweep and slide action controlled by a handle on the upper assembly.

The laser and prism unit is a modular unit which allows it to be used with the rolling tripod frame assembly, or it can also be used on a prism pole and bipod setup, or a mini stake out setup as well.

Part #	Description
LTP526	Floor to ceiling layout system
