**Power to the Pro**

WISPR<sup>SM</sup>

# SkyScout

## Less is More

Introducing a smaller, more nimble, high-performance drone loaded with powerful upgrades capable of the highest level of data capture for discerning engineering, surveying or inspection professionals.

That means more power to capture better data more efficiently.

**WISPR Sky Scout.** Nothing less than impressive.

## Power Up Performance

Big thinking led to innovative design  
and unmatched data capture.

## Universal Small Form Factor Commercial UAS

Small form factor drone with easily interchangeable payloads,  
plane safe batteries and easy to transport anywhere.

## Better Sensors and Software Integrations

Payloads that outperform the competition and mission  
planning efficiencies for commercial applications.

**24Mp or 61MP**

**Mechanical Shutter**

**640 thermal with 240x Hybrid Zoom RGB with Laser Rangefinder**

**LiDAR payload for small drone**

## Rugged and Reliable

Built to handle weather and rough flying conditions.

WISPR<sup>SM</sup>

# Ranger Pro

## Rugged and Reliable

Hard working, easy to set up and built for data capture in the toughest environments, this American-made workhorse is affordable, reliable and can handle a wide-array of payloads for any job. And, since it's supported by innovative, proprietary software the **WISPR Ranger Pro** ensures your mission is smooth from start to finish.

## Tougher Than the Rest

Innovation answered with utmost reliability amidst tough mission demands.

### Pro Payload Versatility

The WISPR Ranger Pro can handle a variety of payloads delivering the data in formats that empower the job and the professional.

### Nothing Hard About WISPR Software

Our software with built-in fail safes and ease-of-use mission planning allows tailored specs per job delivering the highest level of accuracy under any condition. Pro-grade sensors maximize time, efficiency and performance.

### Rugged and Reliable

Built to handle weather and rough flying conditions.

# Payload Power

The interchangeability of WISPR payload systems allows for premium data capture for any situation with ease and reliability.

**GREMSY ZIO**  
240x Hybrid Zoom

**GREMSY VIO**  
240x Hybrid Zoom  
640 x 512 Radiometric Thermal  
Laser Rangefinder

**RESEPI M2X**  
32 Lasers with 3 Returns

**WISPR 24MP Camera**  
Full-frame with Mechanical Shutter

**Sony ILX-LR1**  
61MP with Mechanical Shutter
